Birchcliff Energy Ltd. ("Birchcliff") is an intermediate oil and natural gas company based in Calgary, Alberta that is engaged in the business of exploring for, developing and producing natural gas and liquids. All of Birchcliff's assets are located in Alberta, where it is focused on the Montney/Doig Resource Play. Birchcliff's vision is to be an industry-leading producer of profitable and sustainable natural gas and liquids, with the objective of increasing shareholder value over the long-term. Birchcliff has a strong record of success, built on its core belief that outstanding people, combined with a great corporate culture, creates a winning environment. Birchcliff offers competitive compensation, stock options and benefits to its employees.

Reporting to the Production Foreman, the Field Operator will be responsible for performing routine operating functions and troubleshooting on all equipment, testing and monitoring gas and oil wells using correct procedures. This is a safety sensitive position and will be subject to the relevant requirements of the Birchcliff Drug and Alcohol Policy.

Requirements and Responsibilities

- Environment, Health and Safety must be a top priority – ensure that field operations are compliant to health, safety and environmental regulations and Birchcliff policies and procedures;
- Monitor equipment performance, take corrective action, and initiate work requests for area of responsibility;
- Assist in identifying deficiencies and provide recommendations and implement modifications to existing procedures to ensure optimal performance standards;
- Manage operations of oilfield equipment including compressors, separators, line heaters and wellsite facilities including performing routine maintenance;
- Ensure that operations are carried out in a cost effective manner;
- Prepare and input daily production reporting in PVR system;
- Manage on site contractors, such as, writing work permits, conducting hazard assessments and directing contractors to the worksite;
- Will be required to work 8 days on and 6 days off shift (10 hours/day). Must be willing to be on call and work overtime when required.

Qualifications

- 5+ years related operating experience required.
- PFO/GPO Certification and/or 4th Class Power Engineering Certificate is considered an asset.
- Common Safety Orientation, First Aid and CPR, H2S Alive, and other relevant courses and tickets.
- Demonstrate effective communication with operators, contractors, office teams and management staff.
- Excellent communication skills including a solid working knowledge of MS Office and PVR would be an asset.
- Have the ability to work effectively both independently and in a team based environment.
- Possess strong attention to detail with a high level of accuracy.
- Strong critical thinking skills with the ability to manage and assess risk.

- Excellent organizational and time management skills, in order to manage multiple priorities and competing demands with tight timelines.

Application Process

Note that this position is located in Birchcliff's Pouce Coupe Area. The ideal candidate must reside in the Spirit River, Dawson Creek or Pouce Coupe area. We will also be accepting applicants from the Grande Prairie/Beaverlodge areas to fill one position.

Interested applicants are invited to submit their resume to careers@birchcliffenergy.com with the term "Field Operator" in the subject line of the email.

We thank you in advance for your submission; however, only those selected for an interview will be contacted.
